

*Rec. Mgmt 4-4
destruction of
Rec. Mgmt*

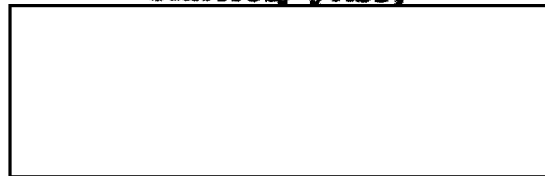

27 SEP 1960

Mr. Dallas Irvine
Chief Archivist, War Records Division
National Archives
Washington 25, D. C.

Dear Mr. Irvine:

Your letter of July 26, 1960 requesting this Agency's position in regard to the proposed destruction of Selective Service System case files has been reviewed by the Office previously interested in retention of these records. It has now been determined that the continued availability of classification information is no longer essential to present or future operations of the Central Intelligence Agency. Therefore, we do not interpose any objection to the destruction of these records.

Sincerely yours,

Chief, Records Management Staff
